וּמִקְנֶה רֵב הָיָה לִבְנֵי רְאוּבֵן "The descendants of Reuven had numerous flock etc." (Bamidbar 32)

The explanation of בַב (Numerous) is that the flock was uniquely different than all sheep, like Rebbi Ephraim pointed out in the Pasuk, the word לְצֹאֹנְכֶם appears nowhere else in scripture - it is a unique word used to describe unique animals. It is possible that the word בַב also hints to this idea - the flock was "numerous/great" in quantity as well as in quality.

The Power of Words

This week's Parasha talks about בדרים [promises]. The Torah says if a person says something he should keep his word. The Torah says לָּאׁ יַחֻל do not make your words mundane. One of the difference between a ri [animal] and an אדם (person) is his power of speech. This makes our words holy because in order for a person to speak he must first think. During the process of thinking the words go through נ שערי בינה [50 Gate of Wisdom]. By the time they reach our mouth they were infused with Holiness.

This is why the Torah says לָּאׁ יַחֵל דְּבָּרֶוֹ בְּכָל־הַיֹּצֵא מִפְּיו יֵעֲשֶׂה do not make words mundane for anything that is said shall happen. This can be explained two ways. 1) Anything a person says he should keep; and 2) Anything that a person says Hashem will fulfill.

The Hida in Chomat Anak [Yom N] says if a person is careful from speaking forbidden things and is careful from speaking even mundane things Hashem will fulfill his words. The Hida says that this doesn't just mean Hashem will fulfill ones prayers but if one is careful not to speak mundane [how much more so forbidden] things, Hashem will fulfill all his words even ones not recited in prayer.

This happens because when Hashem created man he made a special covenant and connection with man's lips [mouth] and if a person keeps that connection by keeping his speech Holy then Hashem will fulfill his requests instantly by placing His stamp on his words.

This can be seen in the incidents brought down in Mesechet Berachot with R' Chanina ben Dosa. When he would pray for someone to get better he would immediately know if his prayer was successful or not. When asked how he knew he would say if the words of my mouth are fluent in my mouth I know that it was accepted. Meaning that he had such a clear connection with Hashem that He let him know through the clarity of his speech if the prayer for someone was accepted. But if the words didn't leave his mouth clearly then he knew that the prayer was ripped and not accepted.

Hashem should help us keep our mouth Holy and accept our Prayers.

If one's friend angers them, one should remain quiet and not respond to the individual. If, however, he must answer his friend then it should be done in a quiet low tone so that one does not become enraged. This is a tremendous key in calming any disputation from escalating to greater heights.

"If a man makes a vow to Hashem or makes an oath to prohibit himself, he shall not violate his word." (Bamidbar 30:3)

From this verse the Midrash teaches that a person does not know his time (of passing). This can be understood simply from the way one makes a Neder. Namely, a person should not say "To Hashem, this Korban." The Shlah HaKadosh explained this is so because we are concerned the person might pass after saying the words "To Hashem" but before saying the words "this Korban," thereby making his utterance of Hashem's name in vain. This is the explanation of the Pasuk as well, as it places the name of Hashem last (avoiding the possibility if stating Hashem's name in vain). On this the Midrash teaches that a person does not know his time.

זָה הַדַּבֶּר אֲשֶׁר צָנָה יְהֹנֶה אִישׁ כְּי־יִדּׁר גַּדֵר לִיהֹנָה

"This is the thing Hashem has commanded if a man makes a vow to Hashem etc." (Bamidbar 30:2-3)

Why did the Torah state the word "this" when introducing this commandment, seemingly it should have stated "Hashem commanded." The explanation may be based on the teaching of our Sages differentiating between a vow and a donation. When one states "it is upon me to bring such and such" it is considered a vow. However, when one points at an animal and states "this shall be for Hashem" it acquires the status of a donation. The Torah is alluding that the prime offering that should be brought to Hashem is the offering brought with "this," namely, a donation offering. However, the Torah stresses that it is incumbent on the individual to fulfill his word steadfastly.

וְלֹא נִפְקַד מִמְנוּ אִישׁ

"Not one man was missing from us." (Bamidbar 31:49)

The Sages taught in Masechet Kallah that "Moshe was concerned that [after the war] the Jewish people would return to their wicked ways. Therefore, the Jews answered Moshe, Not one man was missing from us." How is this an answer? The explanation is that they meant the characteristic of "אֵלִישׁ" — superiority, was not lacking from them because they have not sinned. After all a sinner is referred to as "בְּהַבְּהַ" — an animal, but as for us, they answered, we are all men and from us "man (righteousness) was not missing."
